## Gift Ideas

The following ideas are common items that I see people needing or asking about on a fairly regular basis. There are plenty of options available for each type of item. Please keep in mind that you generally get what you pay for, and if a little more is invested at the start then the item normally last longer. Most of the items listed below indicate a starting price, but can be much more expensive. This list may come in handy when shopping for holiday or birthday ideas.
